

United States Department of Agriculture

USDA/1890 National Scholars Program

2021 COLLEGE APPLICATION

INTRODUCTION

OMB No.: 0503-0015

Thank you for your interest in the U.S. Department of Agriculture's (USDA) 1890 National Scholars Program. The USDA/1890 National Scholars Program was established in 1992 as part of the partnership between the U.S. Department of Agriculture and the 1890 Land-Grant Universities.

The goal of the USDA/1890 National Scholars Program is to increase the number of students studying agriculture, food sciences, natural resource sciences, and other related disciplines. The program is open to high school seniors, rising college sophomores, and juniors who exhibit exemplary leadership traits and demonstrated community service. The Scholarship is highly competitive and provides for full tuition payment, among other benefits, for up to 4-years to selected students enrolled or accepted for enrollment at an 1890 Land-Grant University. The 1890 National Scholars Program partners with USDA agencies and staff offices to provide scholars with professional and educational opportunities. A sponsoring Agency Coordinator will be assigned to the scholar. The program Agency Coordinator will be the primary point of contact of scholar. The Sponsoring Agency will work closely with scholars to provide ongoing support and ensure the Scholar is on track with degree requirements.

The USDA/1890 National Scholars Program is implemented under the USDA Fellows Experience Program (FEP). Scholars accepted into the program will be appointed using the Schedule A(r) authority (5CFR 213.3202) and are eligible for noncompetitive conversion to full-time employment upon graduation. If selected, commit to at least one year of service to USDA for each year of financial assistance provided.¹

The USDA/1890 National Scholar is required to:

- ✓ Commit to at least one year of service to USDA for each year of financial assistance provided .
- ✓ Reimburse the USDA Sponsoring Agency for costs of education (excluding the employee's pay and allowances) incurred by the USDA Sponsoring Agency, if the Scholar voluntarily separates from the service of the USDA Sponsoring Agency before the end of the period for which the Scholar has agreed to continue in the service of USDA .
- ✓ Consult with and obtain the approval of the Sponsoring Agency prior to making any changes to their academic program. Unapproved changes may affect the Scholar's continued participation in the program, such as scholar's participation in study abroad programs, third party internships and leave of absence. The Scholar is expected to meet with Agency Coordinator to go over degree classes and ongoing academic status.
- ✓ The Scholar must coordinate summer work experience through the their summer work site manager. The Scholar must report to work site and have a record of their individual development plan.

Again, thank you for your interest in the USDA/1890 National Program and best wishes in your pursuit of academic excellence!

¹Specific details of this "service requirement" will be outlined in the agreement entered into by the selected Scholar, the University at which the scholar is matriculated, and the USDA sponsoring agency. The "service requirement" is subject to change.
